

Food Preferences

Hello, We are a team of students at faculty of Computing and Data Science and we're conducting a survey on food preferences. We'd love to hear from you about your eating habits and what you prefer to eat.

This will help us determine the most preferred food ingredients and dietary restrictions.

The survey aims to determine the most preferred food types and explore how they vary from one person to another.

Please complete this 5-minute survey. Your responses are anonymous and you can skip any questions you are not comfortable with. Thank you for your participation. We really appreciate your input!
